Re: Complaint Control #: 4479 (EMTALA)

Dear Mr. Rowe:

On June 2, 2010, an EMTALA revisit "desk review" survey was conducted by the Idaho Bureau of Facility Standards (State survey agency) staff, based on an allegation of compliance with the requirements of 42 Code of Federal Regulations (CFR) § 489.24 Responsibilities of Medicare Participating Hospitals in Emergency Cases and /or the related requirements at 42 CFR § 489.20.

After a careful review of the findings, we have determined that your hospital is now in compliance with these requirements. The proposed termination action from our February 23, 2010, letter is rescinded. We are closing the termination action and this case.

We thank you for your cooperation and look forward to working with you on a continuing basis in the administration of the Medicare program. If you have questions regarding this letter, please contact Kate Mitchell of my staff at (206) 615-2432.

Sincerely,

Steven Chickering Western Consortium Survey and Certification Officer Division of Survey and Certification
